NO TYPICAL CHURCHES...NO TYPICAL PARISHES... NO TYPICAL CATHOLICS.

*P*arish churches and missions have always reflected the diversity present in the United States. They were built for a specific location, people and time. But now, everything has changed, and change is accelerating. Generations are passing. People are relocating. Values are shifting. Diversity is increasing.

The mission and ministry of parish churches will continue to be impacted by local factors such as ethnic population, family structure, population density, median age, religious preference, faith involvement, and household values and concerns.

When it's time for you to make decisions about the future of your churches, Percept can provide you with the right information and tools to make the task of planning simpler and more effective. We can equip you with complete demographic and ethographic parish profiles, as well as diocesan or regional studies, with large planning maps and materials. Call 1-800-442-6277 for planning solutions that are anything but typical.

PHILOSOPHY

There is no magic way to raise money but there are time tested procedures which will make the process more effective and the results more satisfying.

Experience is a key factor: knowing what to do and when to do it. Time is a key factor: undivided attention with a definite beginning and end. Communications is a key factor: simple, declarative sentences in attractive and frequent brochures and bulletins.

Development Direction can do all this for you. Our resident consultants provide full time, on-the-scene service, for a flat, pre-determined fee. Or, executives of the firm will furnish consultative service on a part time basis.

If you need money but are reluctant to bring in professional people, call us. If you can do it yourself, we will tell you how. We do not discourange such initiative but the professional fee is so reasonable, it more than pays for itself.

You will be pleasantly surprised. Call or write us.

It's the sound of quality

You don't have to know anything about handbells to appreciate quality. Compare it to any experience in life you want, when you encounter quality, you recognize it. The same is true with handbells. When you've seen a Malmark bell, you can see the precision of a fine musical instrument. When a choir comes together to produce beautiful music, you can feel the magic. The sound is rich and clear. The interaction of the ringers creates a spirit that is uplifting. That's when the true quality comes through. Call or write Malmark for more information.
